**Project Description:** Previous owners of this parcel of land operated petroleum stations. They occupied and contaminated the site over an unknown period of time. Current ownership and use is a banking center. Contamination sources would have been improper storage and operations by previous owners. Remediation of this project was soil and source removal. Over 2.5 tons of petroleum hydrocarbon impacted soils, 3 UST's and piping related to pumping stations was removed. Monroe County Health Department also reviewed and commented on work plan approval.
